

The publication NCU1.9/2:YR (NCUA Year-end Statistics for Federally Insured Credit Unions) has long been archived by GPO. GPO has held copies in offline storage for this publication for every year of online publication since 1996, and so, in fact, GPO has held a full run of the online version of the publication.

It is GPO's practice to link to the live site for serials until the agency no longer makes the publication available. At such times, GPO works to make back issues available unless the agency has declared the publication superseded. In the case of NCUA Year-End Statistics, GPO linked to the live site, and NCUA later chose to remove some of the earlier titles in its run from its live Web site and offer only the current year and the previous three years.

For this reason, GPO has redirected the PURL associated with the publication, <http://purl.access.gpo.gov/GPO/LPS26975>

, to the archived issues, and created a new PURL for live site:

<http://purl.access.gpo.gov/GPO/LPS85862>

. LPS26975 and LPS85862 are annotated in the 856 field with a \$3 marking them as archived and live issues, respectively, so that users may easily determine which PURL links to older or newer content. The archive PURL links to every issue published from 1996 to 2005, and these issues are stored on GPO's permanent access server so that GPO controls the content (and its shelf life).

These modifications, and the content, can be viewed via GPO's record for the electronic format. The [EL record](#) can be found via:

- TITLE: NCUA Year-end Statistics for Federally Insured Credit Unions
- CLASS NUMBER: NCU1.9/2:YR
- ITEM NUMBER: 0527-F (online)
- OCLC NUMBER: 51829685
- SYSTEM No: 000550620

in GPO's Catalog of Government Publications.

In the future, if such changes are found in a GPO PURL link to an agency's online offerings of a serial publication, please contact GPO to let us know that the we need to update our PURL to include links to archived content.
